

PAY & DISPLAY Autocashier

NEW

*Simplicity + Reliability =
Hamilton's NEW
Pay & Display Autocashier!*

Now the popular Pay and Display parking solution is available with the reliability you've come to know from Hamilton.

Reduce overhead costs and secure payment with this more efficient system of collecting parking fees. Pay & Display is the ideal solution for many pre-pay parking situations including municipalities, hospitals, marinas or universities...lots and garages alike.

The Autocashiers user-friendly design allows customers to quickly and easily complete their transaction. They choose from eight pre-programmed time blocks and pay with cash, credit or tokens. The receipt is then placed in the dashboard of the vehicle. It's just that simple.

You can easily program up to eight blocks of time anywhere from 0 minutes to over 4 days. The receipt is printed with large bold type that allows an enforcement officer to read the expiration date and time from a distance of 20 feet or more!

Shown with optional stainless steel mounting base and lighted hood.

Cabinet

* Flange extends 1" from edge of cabinet.

NOTE: Specifications on drawing subject to change.
