

MODELS GNC-1 & GNB-1

# Card Reader Pedestals

For easy installation of card readers, keypads, telephone entry systems, and other access control products and for the convenient use of these devices from a vehicle, this pedestal is available in two styles. The GNC-1 is a curb mount model that includes a base plate with extra large 5/8" holes to accommodate anchor bolts to mount the pedestal to concrete. The model GNB-1 is a burial mount for installations where a curb mount is not practical or desired. The material for both pedestals is 2" X 2", 1/8" thick, cold rolled steel. Finish is black powder coat. A mounting flange gasket is included.
